Hawle-E1 Flanged valve

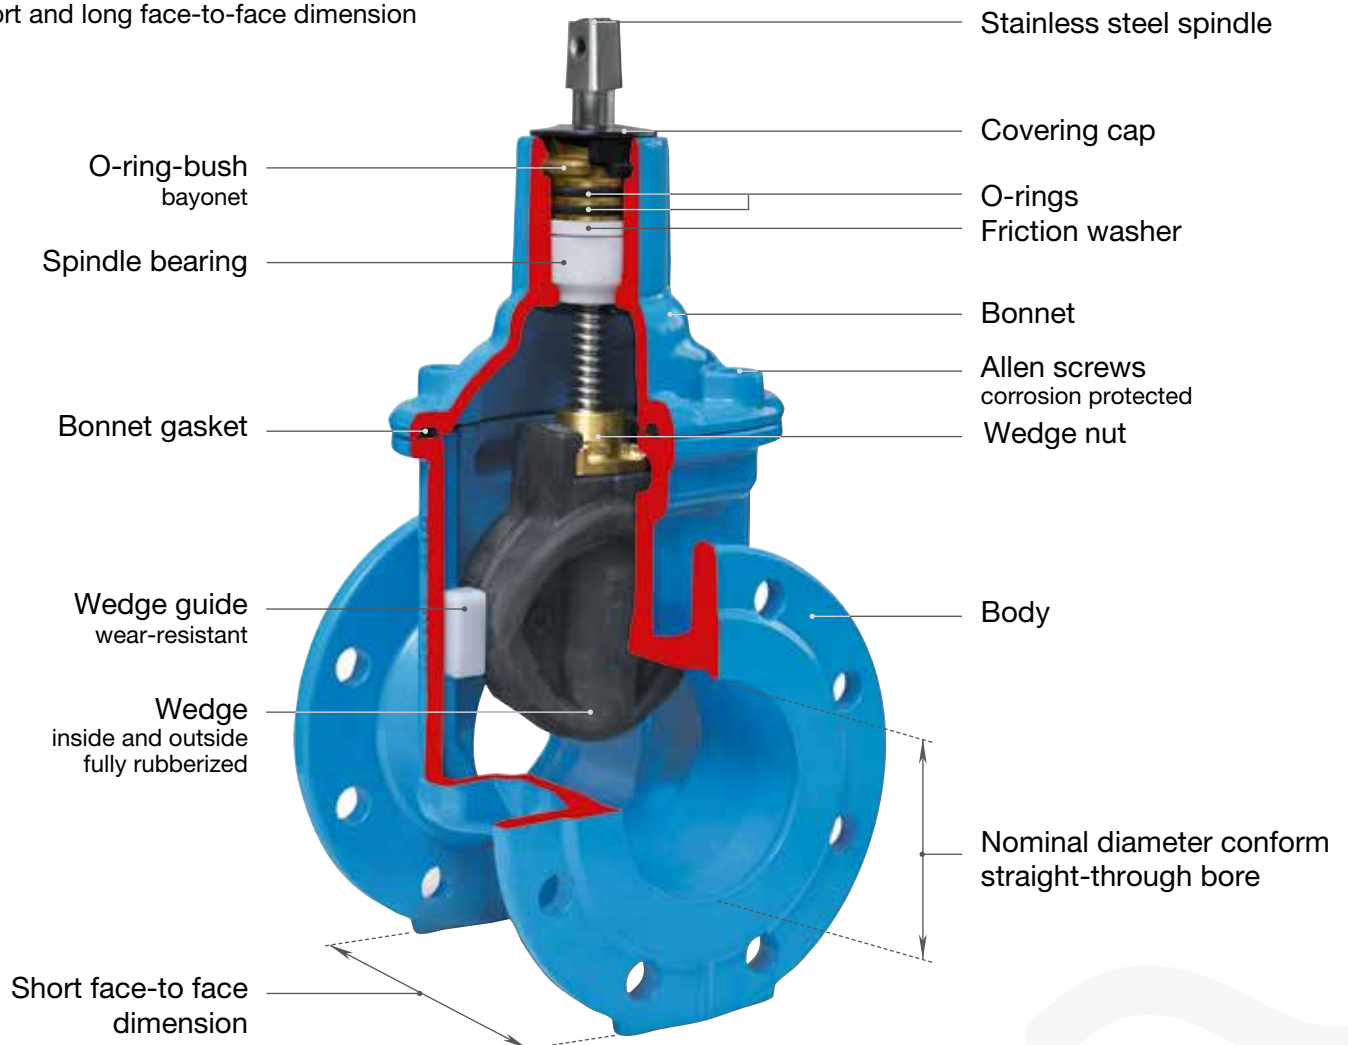

made for generations.

Hawle-E1

Flanged valve

The Hawle-E1 Gate Valve is the result of our consequent improvement of the well proven ELYPSO Valve. The O-ring bush is fixed in the all side epoxy powder coated bonnet by a bayonet connection. Wedge guides made of POM guarantee lowest wear and lowest closing torques.

- DN 50 — 300
- PN 10 | PN 16
- Application: potable water
- According to EN 1074-1 und -2
- Short and long face-to-face dimension

Hawle - quality guarantee

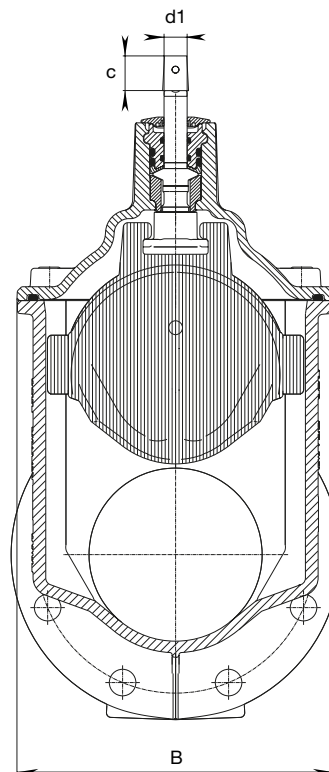

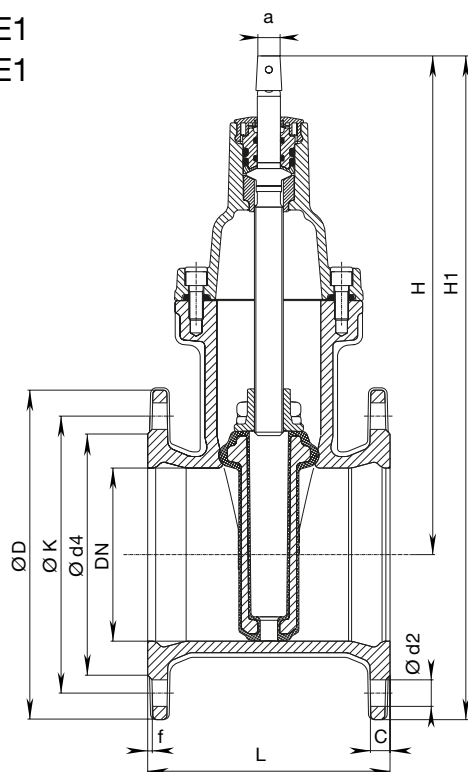

* No. 4000E1 DN 50 — 200, short face-to-face dimension ÖVGW approved
